

Stevie Knodel

"I earned my BA in Criminal Justice with a minor in Psychology. My plans after graduation are to work for juvenile corrections (hopefully in Seattle). I'd like to thank my mom for being one of my biggest supporters. I'd like to thank my dad too. Thank you for financially supporting me and helping me achieve my goals at IU. One professor that had a profound impact on me was Roger Levesque. I took his Juvenile Systems class and he published one of my papers. He made me feel competent and spurred me on my dreams toward working with juveniles."
