

Timothy Stanton

"I am graduating with a B.A. in Criminal Justice and B.A. in Chemistry. I am intending to receive my Master's in Social Work. In the future, my goal is to have an impact on decreasing the recidivism rate for juveniles exiting correctional facilities. I would not be where I am at today without each and every one of my family members and friends. I am so grateful and proud to share this amazing accomplishment with them. On to the next chapter. I also want to thank Professor Schlegel for mentoring HOPE Mentoring when I was in one of his courses. I would have never found my love for mentoring youths in juvenile correctional facilities if it was not for him telling his students to get involved with HOPE.
